Pressure Booster Pump Continuous Duty for Evolution (Special Order)

Model: hf-HL29014

Pressure Booster Pump Continuous Duty for Evolution (Special Order)

Manufacturer: Hydro-Logic

Hydro-Logic Pressure Booster Pump Continuous Duty for Evolution (HL29014) Heavy duty, commercial booster pump designed for continuous use. Includes integrated low pressure and high pressure switches. Can be used in conjunction with our float valve. Adjustable pressure dial. Direct 120V plug in. Includes pump protector / inlet filter and 1/2" QC fittings. Does not thermally cycle. Designed to run continuously 24/7. A work horse pump that will power your Evolution-RO1000 to 80 psi and is compatible with other 1000-1500 GPD RO systems to boost them up to 150 psi. Please note: This is a Special Order Item and may take 4-6 weeks to ship. No cancellations once this item has been ordered.
