PRO filter 45s Non-Reversible Carbon Filter (with flange)

Model: hf-ATPRO45S

PRO filter 45s Non-Reversible Carbon Filter (with flange)

Manufacturer: HydroFarm

Atmosphere PRO filter 45s Non-Reversible Carbon Filter (with flange) (ATPRO45S) Most air filters utilize 65% of the carbon available by only filtering through the top section of the carbon filter, leaving the bottom section unused. PROfilter uses an innovative patented design allowing the user to reverse the filter, benefitting from the use of 100% of the carbon available and effectively extending the units' life span. Manufactured with only the finest TC940 virgin 4mm grain sized carbon, PROfilter effectively removes 99.5% of odors. Rated for a continuous worry-free operation and available in seven different sizes and CFM ratings, PROfilter can be used for commercial or residential applications.

CFM: 150

Flange: 4" Fixed

Height: 18"
