RainCity Aeroponics RainMaker 8 Site System

Model: eco-4682

RainCity Aeroponics RainMaker 8 Site System

Manufacturer: -

RainCity Aeroponic Systems

RainCity Aeroponics RainMaker 5 or 8 site system - True Aeroponic System delivers Fast and Furious Growth through a super aerated nutrient solution using Micro Sprinklers that are spaced to be free and clear of rapid root growth. Both the 5 and 8 site system can be used for all stages of growing including Cloning and be kept in the same unit through flowering and fruiting.

Both the 5 and 8 site units are plumbed and able to be networked with multiple units to a central reservoir. The system includes neoprene inserts, manifold, and 3" net pots. Pump sold separately.

Recommended with the ActiveAqua 250 GPH submersible pump. Unit size - 29"L x 20"W x 15" H

MSRP: \$209.95

Price: \$167.73
