Model: hf-GH93360

Rainforest Res. Hex Lid

Manufacturer: General Hydroponics

General Hydroponics Rainforest Res. Hex Lid (GH93360)Hexagonal Lid.

RAINFOREST® SERIESAeroponics Cloning/Growing System

For propagating cuttings or quick-starting seeds, rooting transplants or seedlings, no other hydroponic system will match the performance of the RainForest. This system is ideal for starting plants or even growing plants to maturity and on to harvest. Many growers choose to start their plants in RainForest modules and later transplant them into larger systems such as our WaterFarm. Several RainForest modules can be connected to a Texas Controller for creating larger installations.
