Rasta Bob's Blackstrap Molasses, 1 Gallon

Model: RBM-GA

Rasta Bob's Blackstrap Molasses, 1 Gallon

Manufacturer: C.A.P. Custom Automated Products

Rasta Bob's Blackstrap Molasses

Rasta Bob's Blackstrap Molasses is derived from pure sugar cane and contains trace minerals as well as nutrients to boost carbohydrate levels, sweeten, and maximize the nutrient absorption of your plants. Although the natural sucrose derived from sugar cane acts as a sweetener, the benefits from adding it to your feeding schedule are even better when applied with a compost tea! Blackstrap unsulphured molasses contains carbohydrates, sulfur, potash, iron, and other trace minerals that help feed not only your plants, but also the micro organisms living in your soil, or organic nutrient mixes.
