Rock Nitro 5 Liter (2/Cs)

Model: 746158

Rock Nitro 5 Liter (2/Cs)

Manufacturer: -

Rock Nitro is a concentrated nitrogen supplement that will accelerate plant growth, driving juvenile plants into maturity. Calcium, another component of Rock Nitro is an important constituent for the growth of strong cell walls which in turn helps to build strong stems. Rock Nitro will work in all mediums but is especially suited for coco coir which tends to reduce the efficiency of nitrogen solutions. Use Rock Nitro throughout the vegetative stage at a rate of 4 mls per gallon for the first four weeks of growth.
