Roots Organics Potting Soil 1.5 CF

Manufacturer: Aurora Innovations

Roots Organics Roots Organics Potting Soil 1.5 CF (ROD) Roots Organics Potting Soil A truly exceptional ready-to-use coco fiber-based potting soil. We begin with a base of the highest quality coco fiber/Coir on the planet which is repeatedly washed for an incredibly low EC, and composted for over twenty-four months, and is specially blended with extra long fibers. This soil is amended with only the highest quality organic ingredients including bat guano, premium earth worm castings, fish bone meal, feather meal, green sand, mycorrhizae, glacial rock dust, soybean meal, humic acid, and many more. Already blended with correct proportions of perlite and pumice for excellent drainage and a vigorous root system, Roots Organics potting soil encourages healthier plants and better yields. Comes in a heavy-duty, ready-to-grow, 1.5 cu ft/10 gal, camoflauge print bag; simply poke holes in the bottom, cut off the top, and plant.
