Roots Organics Soilless 1.5CF

Manufacturer: Aurora Innovations

Roots Organics Roots Organics Soilless 1.5CF (ROS) Roots Organics Coco Soilless Mix A unique formulation of the highest quality coco fiber/Coir on the planet which is repeatedly washed for an incredibly low EC, composted for over twenty-four months, and specially blended with extra long fibers, perlite, and pumice. Lightly amended with a starter charge of organic fertilizers like bat guano, worm castings and kelp, this mix is designed for heavy feeding and high performance in container or hydroponic applications. Coco fiber is a great medium and an excellent replacement for peat moss; it is an environmentally friendly by product, pH stable within the ideal range for nutrient uptake, and because the Lignin content is slow to decompose. Roots Organics Coco soilless mix was created for the gardener who demands higher performance from their plants.
