Roots Organics Trinity Catalyst

ROOTS TRINITY CATALYST GALLON 4/CS

This complex liquid blend of organic compounds is specifically designed for maximum effect as a plant, root, and rhizosphere catalyst. With its proprietary recipe of distinct ingredients, our exclusive formula is a universal supplement for both growth and bloom. A unique blueprint for success, the ingredient list includes such products as complex organic Saponins, soy extract, yeast extract, kelp extract, humic acid, fulvic acid, and L-aminos to name a few. All of these have been combined to encourage plant vigor, reduce stress, accelerate growth, and increase yield. Trinity can be used with any nutrient program for increased micronutrient uptake and an overall increase in plant health and harvest quality.
