Salamander Soil Potting Mix, 1.5 cu ft

Manufacturer: FoxFarm

FoxFarm® Salamander Soil™ Potting Mix

Plants that are grown in hot climates need that extra thirst quench so that they can stay vigorous and not get stressed from drying out. The inconvenience of frequent waterings is sometimes problematic for growers who just can't get to their plants in time. Moisture has to be accurate; too much will cause root rot and plants will suffer. Use Salamander Soil™ for rooted cuttings and young plant starts for both indoor and outdoor cultivation. Plant directly into Salamander Soil™ Potting Mix. Your precious little seedlings and plants will have access to the nectars of a moisture mix full of life giving properties.

• Super Water Holding Properties • 60 to 70% Coco Coir Content • Ready To Use - pH Adjusted • Contains Beneficial Microbes
