Smart Pot, Tan, 600 gal, 86" x 24"

Manufacturer: High Caliper

The Smart Pot® is a soft-sided aeration container that air root prunes your plants. Air root pruning is a key component to a healthy fibrous root ball. Unlike plastic containers, roots do not circle. Instead, air root pruning creates a more fibrous root structure with more root tips. More roots means quicker growth. No circling roots mean better growth.

Soft-sided fabric aeration container that has the rigidity to hold its shape

Provides aeration, enhancing root structure, resulting in a vigorous plant with more flowers and fruits and increased insect and disease resistance

Allows excess heat to escape

Developed for, and used by commercial tree growers
