Model: hf-SN31116OZ

SNS 311 Plant and Vegetable Wash, 16 oz

Manufacturer: -

SNS-311™ Natural Concentrated Plant, Fruit, Vegetable & Surface Wash

What is it? Think of SNS 311 as immediate medicine for your plants or (First Aid Kit). Little spritzes may help a lot of conditions.

SNS-311 Natural Plant, Fruit and Vegetable Wash reduces oxidative stress on plants, safely removes pesticide residues and other contaminants, and destroys bacteria and fungus while adding some additional vitamin C to the plants, vegetables, and fruit.

SNS-311 is made with Ascorbic Acid (Vitamin C), Sodium Bicarbonate (Baking Soda), Potassium Bicarbonate (Baking Powder), and Quillaja (Soap Bark) a botanical surfactant.

As a Plant Wash it may;

- Reduce oxidative stress, reduce ozone issues i.e. Brown tips, Brown scarring and leaf curling
- Remove pesticides oils
- Remove fungicide oils
- Reduce the odor from botanical pesticides and fungicides
- Reduce insect damage, by reducing stress
- Reduce fungus and bacterial damage, by reducing stress and washing off the fungus and bacteria
- May reduce fungus and bacteria by reducing their ability to adhere to the plant
- May increase the amount of fruit
- May increase fruit and leaf size
- Current testing has shown significant reduction in the treatment of Scales
- May reduce odors, if your plant smells like Rosemary or mildew a little spray can reduce the odor
- 1 ml of SNS 311 will eliminate 1.5 ppm of chlorine in 1 gallon of water and buffer the water to 6 pH

May be used every day as a maintenance plant wash. You will notice your plants looking brighter, even glowing and smelling fresher.

As a Vegetable and Fruit Wash it may;

- Wash off pesticides and other contaminants
- Wash off bacteria and fungus
- Destroy bacterial and fungus
- Reduce the ability of bacteria and fungus from adhering to the vegetables and fruit
- Increase shelf life of vegetables and fruits due to reduced bacteria and fungus
- Add some additional vitamin C to the vegetables and fruits
- A little bit of SNS 311 added to chlorinated water will remove chlorine
