SNS HydroBiotics, 4 oz Pouch

Model: hf-SNHB4OZ

SNS HydroBiotics, 4 oz Pouch

Manufacturer: -

SNS-HydroBiotics™ is an environmentally safe probiotic inoculant containing powerful microbes for maintaining hydroponic reservoirs & watering systems as an aid to help reduce system fouling.

Uses for HydroBiotics™ Overall water quality improvement • 4 ounces makes 45 gallons of ready to use solution

- 1 gallon makes 1440 gallons of ready to use solution
- Aids in making the plant water more active, may reduce unwanted bio-loads
- Helps sterile and over taxed water systems by adding bio-diverse organisms
- Helps reduce COD and BOD caused by high nutrient levels (TDS) in hydroponics systems
- Helps oxidize ammonia (NH₃) that may build-up during high nutrient/fertilizing dosing
- May reduce fertilizing cost by increasing bio-availability of the watering system
- Will help reduce bad odors in watering systems
- Can keep you watering systems cleaner by reducing food materials other organisms use
- Helps reduce bottom sedimentations
- Reduces turbidity of the water system

Directions for use: Hydroponics Reservoirs: Add 2.5 mL (1/2 tsp.) of HydroBiotics™ per gallon (3.79 L) monthly or after reservoir change.

Tea Reservoirs: Add 5 mL (1 tsp.) of HydroBiotics™ per gallon (3.79 L) during brewing.

Garden Watering: Add 2.5 mL (1/2 tsp.) of HydroBiotics™ per gallon (3.79 L) of water every two weeks.

*May be used with nutrients and fertilizers.

Do Not Mix with Hydrogen Peroxide (H₂O₂).

Ingredients: Purified Water, Proprietary Lactic Acid Cultures, Molasses, Mineral Powder, Sea Salt, Rice Bran Liquid Extract & Citric Acid

Price: \$7.62
