Sugaree - 1 Gallon

Model: HY342

Sugaree - 1 Gallon

Manufacturer: -

0-0-2

OMRI-listed Sugaree from Cutting Edge Solutions is packed with energy for plants to use when they need it most. Its low molecular weight sugars are easier for plants to process than those from other sources, making up for reduced energy production at the end of the flowering phase. It also contains potassium for increased photosynthetic potential.

Price: \$55.68
