Super Sprouter Aqua Clone 24 Site Deep Water Cloner (6/Cs)

Model: 706557

Super Sprouter Aqua Clone 24 Site Deep Water Cloner (6/Cs)

Manufacturer: -

The Aqua Clone™ 24 site cloner works on the principle of re-circulating super oxygen rich water created by the Aqua Clone™ aeration pump. The Aqua Clone™ aeration pump draws in oxygen from the atmosphere and produces turbulence to continuously nourish your cuttings. No spray jets to clog up and the water stays cool. Kit includes 2 sets of Super Sprouter® neoprene inserts (20 colored and 20 black), 1 Aqua Clone™ pump, 1 molded cover and an impact resistant reservoir made from black light proof material.

Price: \$40.12
