SuperTube6 Reflector

Model: dl-129732

SuperTube6 Reflector

Manufacturer: -

SuperTube6 Reflector (129732) This unique reflector features an adjustable width which allows the user to control the surface area covered and a built-in Pyrex cool tube that provides less drag to achieve maximum airflow and CFM. The pre-installed, aerodynamically designed E39 socket also reduces drag and is compatible with all wattage MH and HPS lamps. This reflector is fully assembled and ready to use.

Flanges: 6 inch

Dimensions: 25 L x 17 W x 7.75 H

Weight: 9.35LBS
