The Lazy Gardener Automatic Watering Device 14" - 22"

Model: hf-AG3418

The Lazy Gardener Automatic Watering Device 14" - 22"

Manufacturer: HydroFarm

AgroSci The Lazy Gardener Automatic Watering Device 14" - 22" (AG3418)The 3-in-1 Lazy Gardener root management device delivers water vapor, heat & air directly into the root-zone.

The Lazy Gardener creates ideal growing conditions by maintaining consistent moisture content, root zone temperature and oxygen levels. It delivers water vapor rather than liquid, which is the most efficient form of irrigation, eliminating overwatering & reducing water use up to 90%. It's a "set it & forget it" product. Set the water up and walk away, maybe refill a once every week. You can take a vacation from your plants for weeks a time! All you need to supply is a power outlet and water reservoir. You will never have to worry about over- or under-watering your plants again.

Watch a quick video about the Lazy Gardener here.

Features• Self-watering with water vapor irrigation• Root-zone warming• Root-zone aerationBenefits• No overwatering or under watering• Up to 90% reduction in water use• Longer growing season and higher yields• No fungal root diseasesLarge modelSize: 14"-22", 7-12 glMoisture Delivery Wick: 18"Wattage: 12W
