The LED Grow Book

Manufacturer: HydroFarm

In The LED Grow Book, Christopher Sloper shares insights gained from years of researching and growing indoors with LED grow lights - the coolest lighting technology to hit the indoor gardening industry in a decade. The LED Grow Book doesn't stop at explaining how LED grow lights work and how to pick one. It continues with an in-depth guide to effective indoor gardening practices with chapters on grow spaces and systems, plant nutrition and feeding, pest control and more.

The LED Grow Book is a must-read for anyone who is serious about gardening indoors - even if you never plan to use a LED grow light. It's chock full of indoor gardening tips that will make every indoor gardener more successful. This book will help the reader:

- Avoid costly mistakes
- Design the perfect grow room
- Dispel the myths that surround indoor gardening
- Achieve better yields with less energy-both electrical and human
- Grow healthier plants that resist pests and produce bountiful harvests
