Model: hf-FX14019

Tiger Bloom, 1 qt

Manufacturer: FoxFarm

FoxFarm Tiger Bloom, 1 qt (FX14019) Tiger Bloom® is our most Vicious Bloomer with Micronutrients. FoxFarm Tiger Bloom® is an ultra potent, fast acting, high phosphorus fertilizer that also contains a good supply of nitrogen for growth and vigor. It is formulated with a low pH to maintain stability in storage and keep micronutrients available. Tiger Bloom® can be used for both hydroponic and soil applications. When used as directed Tiger Bloom® encourages abundant fruit, flower, and multiple bud development. Use Tiger Bloom® at the first sign of flowering at the rate of 2-3 teaspoons per gallon of water. It can also be used as a foliar fertilizer; just apply it to both sides of leaves early in the morning. To extend flowering or fruiting, add our Big Bloom® liquid fertilizer late in the season.
