Titanium Precision Pruner

Model: hf-HGPP400T

Titanium Precision Pruner

Manufacturer: HydroFarm

Hydrofarm Titanium Precision Pruner (HGPP400T) Hydrofarm introduces its new "heavy hitter" - titanium precision pruners. We cloned what you liked about our precision pruners - including an ergonomic design for cutting comfort, high-quality spring, and stainless steel construction - and combined that with the power of titanium. The high strength-to-weight ratio of titanium means that it offers serious cutting capacity in a lightweight package. The new titanium coating on these pruners means they are resistant to corrosion and tarnishing, essential when they're around your misters and humidomes. Don't think these lightweight pruners are light weights, either. Titanium is considered virtually indestructible - you'll certainly consider it a cut above the rest.

Features

Surgical stainless steel with titanium coating

Ultra-light & ergonomic

Ideal for cutting and trimming flowers

High quality springs

Includes blade cap for safety

Order a case, get a free display

Manufacturer's Product Information

MSRP each \$16.95
