Two-Stage Reverse Osmosis System

Model: hf-AARO312

Two-Stage Reverse Osmosis System

Manufacturer: HydroFarm

Active Aqua Two-Stage Reverse Osmosis System (AARO312) Specifically designed to generate small volumes of clean water on demand, this 2-stage system is one of the most economical RO systems in the world! Includes a single heavy-duty carbon block to eliminate chlorine and assure good RO membrane life.

• Hydrofarm TFC membrane element • Heavy-duty wall mounting bracket

Replacement filters are AARO701 and AARO610

A minimum of 40psi is required to properly operate the system.
