VermiWorm .75 cu ft (60/Plt)

Model: 720765

VermiWorm .75 cu ft (60/Plt)

Manufacturer: Vermicorp Organics

VermiWorm VermiWorm .75 cu ft (60/Plt) (720765) The key to achieving extremely high amounts of well-rounded beneficial biology in VermiWorm is to control the organic matter that is provided to the worms as a food source. VermiCrop provides a very specific proprietary diet to their worms. They have removed all manures from the worms' diet which eliminates the risk of manure borne pathogens. With the correct food sources and the removal of competing pathogens, the earthworms can digest and excrete higher levels of beneficial biology to create the premium castings of VermiWorm. Pricing may vary by region - contact a dealer for exact pricing in your area.
