WaterFarm Complete

Manufacturer: General Hydroponics

WaterFarm Complete (eco-4726)WaterFarm Completed

The WaterFarm is built out of high-impact plastic to assure a long service life. The WaterFarm has a unique square design allowing growers to closely pack WaterFarm modules in order to create large, high-density installations. The WaterFarm will grow small, medium, and large plants. With its large water capacity and low water requirements, the WaterFarm is simple and efficient. As it offers all the features of larger systems at a lower cost without sacrificing quality or performance, the WaterFarm is one of our very best buys.

WaterFarm Complete

General Hydroponics WaterFarm Drip Hydroponic System - This drip system comes in two forms, complete and modular. The complete WaterFarm comes with reservoir, growing chamber, fittings, pump, hydroton and 3-part Flora Kit. The modular unit comes without the Drain Level Tube, pump, hydroton and Flora kit, but is designed for multiple use with a controller.
