World Wide Garden Supply Equipment Board for GrowLab Grow Room

Model: hf-WG6010

World Wide Garden Supply Equipment Board for GrowLab Grow Room

Manufacturer: -

As every gardener knows, tidiness and cleanliness in a Growbox are important factors to success. The HOMEbox Equipment Board is a new addition to our add-ons, enabling every HOMEbox user to tidy up their own grow tent. The Equipment Board is made of high quality powder coated steel. It offers sufficient space (40x90 cm) and weight capacity (max 30 kg).

- Built from powder coated steel tubing • Dimensions: 40 x 90 cm • Weight capacity: max 30 kg

Grow equipment such as:

Electronic ballasts, pH meters, CO2 meters, thermometers, hygrometers, control units and climate controllers, time switches, relays and switch cabinets.

Everything a gardener needs can be placed inside the HOMEbox for easy access, offering simple, clean, secure, safe and professional installation using screws or cable ties.

Furthermore the Equipment Board for the HOMEbox provides more stability, similar to the HOMEbox fixture poles. Naturally the equipment board can be easily installed in all standard Growboxes of 2 m height, as all HOMEbox add-on products.
