Code#	Description	MSRP
800986	Gardening Indoors with CO <sub>2</sub>	\$14.95

## GARDENING INDOORS WITH CO<sub>2</sub>

by George F. Van Patten

Plants can use up to five times more CO<sub>2</sub> than naturally occurs in the air. CO<sub>2</sub>, essential to photosynthesis, is often the most overlooked element limiting plant growth. This book demonstrates how fertilizing the air with CO<sub>2</sub> can shorten growing time and double your harvest. Includes technical information on how to set up a CO<sub>2</sub> emitter system or generator system and how to grow cuttings and seedlings with CO<sub>2</sub>. Packed with the most up-to-date facts and figures on CO<sub>2</sub>, Gardening Indoors With CO<sub>2</sub> shows you how to put CO<sub>2</sub> to work in your garden room or greenhouse for super results! Soft cover – 96 pages

Code#	Description	MSRP
800988	Gardening Indoors with Cuttings	\$14.95

## GARDENING INDOORS WITH CUTTINGS

by George F. Van Patten

This book will show you how to perform common cuttings, plus grafting and more. Learn how to choose between the latest root hormones, grow a disease-free garden and achieve higher yields. In addition, learn how to control temperature, humidity, lighting and how to build a mist chamber. This book can give you the understanding and confidence to clone plants like a pro. All of the Gardening Indoors books are written with the beginner in mind and provide clear, easy to understand instructions and descriptions. Soft cover – 96 pages.

**GARDENING INDOORS WITH HID LIGHTS** by George F. Van Patten**Code# Description****MSRP**

800984 Gardening Indoors with HID Lights

\$14.95

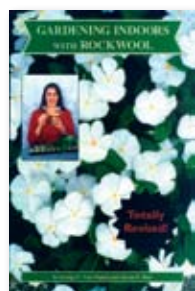

This "how-to" book unlocks the door to the world of gardening indoors under fluorescent and high intensity discharge (HID) lamps. Fluorescent lamps help seedlings and low-light plants start earlier and grow stronger. HID lamps are a substitute for the sun! High-tech HID lamps have been used in Europe for more than two decades with phenomenal results. Now available in the U.S., the HID lamps offer total control of the growing season all year round. Eat vine-ripened vegetables and enjoy fresh flowers daily regardless of the season. A high-tech gardening environment is very easy to create and maintain. Join the scores of other gardeners that are gardening all year round! Soft cover – 200 pages.

**GARDENING INDOORS WITH ROCKWOOL** by George F. Van Patten**Code# Description****MSRP**

800990 Gardening Indoors with Rock wool

\$14.95

This book is packed with all new and revised facts and figures on rock wool, the most popular hydroponic growing medium. It also has detailed instructions showing you how to control pH and electrical conductivity and how to set up a rock wool hydroponic garden. Coupled with a few simple techniques, rock wool can produce twice as much as soil. Soft cover – 128 pages.

**THE FIELD GUIDE II FOR ACTIVELY AERATED COMPOST TEA**  
by Dr. Elaine Ingham**Code# Description****MSRP**

800995 The Field Guide II

\$65.99

Elaine not only understands the soil food web, she has knowledge on how to ensure a healthy food web to promote plant growth and reduce reliance on inorganic chemicals. Elaine is passionate about sharing her knowledge and research findings with those at the grass roots level of working with soils. That includes not just farmers who grow crops, but also fruit and vegetable growers, greens keepers, parks and gardens workers, nursery operators, etc.

Elaine offers a way forward for sustainable farming. A way of improving the soils we work with now and a way to keep soils in this healthier state without damaging any other eco-system.
