Model: hf-EN11010

Elite Base Nutrient A, 1 gal

Manufacturer: -

Elite Base Nutrient A (4-0-1) is a liquid concentrate that works in tandem with Elite Base Nutrient B to eliminate waste and optimize nutrition, making sure your plants have a solid foundation so they can reach their maximum potential.

How it works: Rich in nitrogen and calcium, Elite Base Nutrient A targets the early stages of plant development with key nutrients and supports infrastructure growth from seedling to harvest. In addition, Base Nutrient A contains vital trace elements to boost plant growth and metabolism. Incorporating these trace elements with nutrients in a unique chelating process reduces insolubility and helps establish a perfect pH-balanced solution - no more clogged lines!

Derived From: Sodium Molybdate, Ammonium Nitrate, Calcium Carbonate, Calcium Nitrate, Cobalt Nitrate, Copper EDTA, Iron EDTA, Manganese EDTA, Potassium Borate, Potassium Nitrate, Zinc EDTA

Instructions: Use 3ml-8ml of solution per gallon of water during the Vegetation and Bloom cycle (see feed chart for further details).

The Elite Difference: • Cost Effective: Extra-concentrated formula allows a little product to go a long way • Easy to

Use: Simple 5-product lineup covers all your needs • Optimally Balanced: Nutrients are in their most plant-friendly form and are balanced to maintain an optimal pH, resulting in faster, maximized uptake and quicker absorption • Long Lasting: Superior product stability means longer shelf life • All Natural: Free of

hormones, perfumes, dyes, and growth regulators, including paclobutrazol and daminozide

Download the Elite Nutrients App here! It's a great resource for customizing your feeding schedule.
