Ideal H2O Premium Pleated Sediment Filter 2 in x 10 in

Model: 728810

Ideal H2O Premium Pleated Sediment Filter 2 in x 10 in

Manufacturer: -

Sediment Filters are the standard sediment pre-filter that come with many Reverse Osmosis systems. The Sediment Filter will remove silt, rust, sand, etc. These filters are pleated and cleanable. These filters work with Hydro-logic™ systems as well as Ideal H2O®. Match the filter to the size of your Reverse Osmosis system. Most filters last 6 - 12 months with regular cleaning. Due to manufacturing process, filter colors may vary.
