Plant Success Myco Chum Pint (9/Cs)

Model: 720362

Plant Success Myco Chum Pint (9/Cs)

Manufacturer: Plant Revolution

Myco Chum™ is a premium microbial food containing a perfect blend of molasses, fish emulsion, liquid kelp, humic acids and micro and macro nutrients. During the veg stage, plants are building both root and plant structure; Myco Chum™ provides macro and micro nutrients essential to this process. During the flowering phase, plant require a complex grouping of carbs, as well as, the micro and macro nutrients in Myco Chum™.
