Serrated 6.5" blade, notched handle

Manufacturer: Zenport

K202 Lavender Harvest Sickle

This sickle or berry knife features a 6.5" curved, serrated blade and a wooden handle with a notch. The notch makes the handle easier to grip when wet outside. Widely used for lavender harvest as well as vegetable harvest applications. Sickles are used for lavender harvest, row crop harvest, weeding out ivy, blackberries, thick grass, etc.
