Zenport QZ413 Forged Aluminum Handle Professional Multi-Purpose Pruner

Model: QZ413

Zenport QZ413 Forged Aluminum Handle Professional Multi-Purpose Pruner

Manufacturer: Zenport

Zenport QZ413 large two hand multi-purpose pruner. Held as single-handed pruner, the extra long cutting blade handle allows the use of both hands when cutting thick branches, like a small lopper. Feature a comfortable, light, sturdy handle made of forged aluminum. The blade is made of high-quality hardened steel, which allows clean, precise cuts. The sap groove prevents the blade sticking when cutting "sappy" wood. It saves time and makes pruning easier by removing sap and debris after each cut. The Classic Pruner is easily adjustable. Hand and wrist protection and optimization of the force exerted are provided by the angled head, the ideal shape of the handles, and the cushion-shock absorber - non-slip coating. The QZ413 bypass pruner is an excellent choice for users wishing to avoid tendinitis from prolonged and heavy pruning.
