

CARBONAIRE FILTERS

These filters offer an economical and extremely effective way to remove unwanted organic and chemical odors. Carbonaire uses highly activated virgin carbon to assure maximum odor filtration. These filters are easy to use and under typical conditions will last at least a year. Each unit includes a pre-filter that collects dust and other airborne particles from clogging the carbon. Carbonaire filters are available in four convenient sizes; 4", 6", 8" and 12".

FEATURES:

- Highly activated virgin carbon, for long lasting odor absorption.
- Pre-filter that collects dust and other airborne particles.
- Individually boxed for easy shipping and to keep the carbon fresh.
- Constructed with heavy-duty galvanized steel.

OZN-1 OZONE GENERATOR

Code#	Description	MSRP
700250	CAP OZN-1 Ozone Generator	\$179.95/ea

The OZN-1 from C.A.P. attacks and neutralizes odors at the source. It will eliminate odors caused by smoke, mold, mildew, pets, cooking and damp basements by generating ozone (O₃) - one of the most powerful oxidizers available. Good for deodorizing up to 5500 square feet. This is one of the most powerful Ozone Generators available today. Comes complete with a 3 year warranty (6 months on the bulb). Built with the best quality components from the name that you know - C.A.P. Replacement lamps are available to special order (#700251).

OZN-JR. OZONE GENERATOR

NEW!

Code#	Description	MSRP
700255	CAP OZN-JR. Ozone Generator	\$89.95

This Ozone (O₃) and Anion (Negative Ion - O₁) Generator is an impressive air cleaner built on proven ozone technology. It can be switched between Ozone and Negative Ion mode based on your needs. With its ultra-low energy use, this air purifier is extremely efficient. It uses a microprocessor to control its' operation. Two modes are available, automatic or manual. In automatic mode, it turns on for 20 minutes and off for 40 minutes. In manual mode, it provides 24/7 operation. Ozone output is 8 mg/hr. Ion density is 2.8*10⁶ ions/cc. It uses only 5 watts of electricity!

In addition to purifying the air in your room, it has a LCD display that displays the year, month, time and room temperature. Three year warranty.

FRESH² ODOR CONTROLLING FLUORESCENT BULB

Code#	Description	Case Pk	MSRP
901898	Fresh ² Odor Controlling Bulb	6	\$17.95

A special coating of titanium dioxide is what gives fresh² the ability to break down odors. When the surface of this coating is exposed to fluorescent light, a photo catalytic action occurs. The reaction emits electrons - negatively charged particles - and simultaneously, positively charged holes form in their place on the glass surface. This creates very strong oxidizers that completely break down odors. Purifying begins to work 10 minutes after the bulb is turned on. Use in standard medium base sockets (i.e. in a standard household lamp).
